NEWSLETTER

ANOTHER GREAT YEAR ENDS

It has been a very successful year at King. As you can see from the packed schedule of events for the last days of school, everyone is busy. I'd like to take a moment to thank our three retiring teachers for all of their hard work. Karen MacDonald, Ellen Norton and Charles Butler, combined have over 60 years of service to King.

We hope that our students have a restful and warm summer. We all have earned one after this past winter! I'm excited to say that many of our teachers will be attending conferences and our Summer Institute to plan expeditions for next year.

STUDENTS PRESENT WORK AT STATE HOUSE

York 8 students traveled with Mr. McCarthy & Ms. Paul to the State House in Augusta to present work from their "Engineering your Energy Future." These students are commended for their poise and professionalism. From the left: Jaidyn Appel, Raizel McNally, Tiana Urey, Robbi Sheils and Walter Lewandowski.
